BEFORE THE COMMITTEE.

Attorney T. L. Jones was before the Congressional Republican Committee on Wednesday, in company of Hon. A. W. Harris, Col. James D. Brady and others. It was conceded, by the other side, that Attorney Jones had four majority of the convention. Congressman Thorp said that he would rest his case on Mr. Jones not being a voter and resident of the State and district. Attorney Jones sprung a surprise on Mr. Thorp and his supporters by showing the certificate of the registrar of Petersburg, in which he stated that Mr. Jones was a registered voter of the City of Petersburg and that he voted at the last election. This knocked the bottom out of Thorp's defense.

There is more Catarrh in this section of the county than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O.

ROYAL BLUE TRAINS.

In September last, railway officials from London were sent to America, to get ideas on the railway passenger service of the leading lines in this country, and in their official report, which was printed in the London Times in January, it was stated that the "Royal Blue Line" series of magnificent passenger trains, running between New York, Philadelphia, Baltimore and Washington, lead the world for quick and exquisite train service. The "Royal Blue Line" service consists of nine elegant passenger trains a day in each direction between the cities named above. They are the finest and fastest trains in the world. Their equipment was built especially for the service by the Pullman Company, and includes every modern convenience known for the comfort of passengers. The trains are vestibuled from end to end, and hauled by the strongest and fastest locomotives in the United States.

The exquisite day coaches of these trains are worthy of special note. They are beautifully upholstered, each containing a washroom and smoking compartment.

The parlor cars are the most palatial ever built, being fully seventy-three feet long. In addition to this service, three new parlor cars were added in April, and are the first of this kind ever run; they are richly upholstered and ornamented throughout in most beautiful designs. A ladies' retiring-room is provided in one end of the car. This room, which is six feet square, is furnished with a beautiful dresser with large mirror and a number of drawers. On each side of it are upholstered corner seats. In another end is a bookcase and stationery washstand. The room was designed for especial comfort of ladies, who have always claimed men had the best of it when travelling. The usual smoking apartment, however, is at the opposite end of the car.

The dining cars are operated by the Baltimore & Ohio Railroad Company, and especial attention is given to the menu. Every delicacy is served in season, and the service is unsurpassed.

In addition to the already perfect service of "Royal Blue Trains" mentioned above, there will be put into service May 15 a "Royal Limited" train, which will leave New York at 1.00 P. M., making the run to Washington in FIVE hours. Returning, the "Royal Limited" will leave Washington at 3.00 P. M., arriving New York at 8.10 P. M. The "Royal Blue Line" will then boast of three trains which make this extraordinary fast time between Washington and New York, which has never been attained by any other line. The "Royal Blue Trains" between Baltimore and Washington make the run in FORTY-FIVE MINUTES—the fastest regular service ever attained between the two cities.

The terminal at New York City is the most convenient for all points in Greater New York. Passengers can land at South Ferry (Whitehall Terminal), where, under the same roof, connection is made with the elevated lines of the Second, Third, Sixth and Ninth Avenues, and the Broadway, Lexington and Columbus Avenue Cables. All the Brooklyn Ferries also start from this point, and by taking

SCHOOL OF PRINTING.

We would respectfully call our readers' attention to a new field of labor that THE BEE has inaugurated at its office, 1109 I street, N. W.—a School of Printing for colored youths. It is the intention of the management that any who may avail themselves of the advantages of this school, shall receive a complete practical training in the art of printing in all its branches. The instructions will be under the personal supervision of Mr. Chase, member of the Typographical Union of this city, and who is without doubt among the best all-round printers in the country. Our facilities will be augmented by an entire new printing outfit, including all the latest styles of type, job presses and cylinder press, which will give pupils a chance to be up-to-date in the trade. In this connection we would ask our patrons to send in their orders for job work of any kind, as we will now be able to fill all orders from the smallest visiting card to the largest poster, and promise that our prices and work will compare favorably with those of any firm in the city.

Any young man desiring a trade will do well to write us for terms, etc., or call at this office and look over the establishment. The school will open on July 26th, and those desiring tuition will do well to inquire at once, as only a limited number can of necessity be accommodated. For information, terms, etc., Address, W. Calvin Chase, Manager Bee School of Printing.

Thanking you for past favors, and feeling a-sured of your support in this new endeavor, we are yours,
THE BEE.
